Dear Karina,

CFUW Burlington would like to raise some points with you re Bill C-12, the Climate Accountability Act.

Action on climate is urgent so we think rather than restrict greenhouse gas emissions to 30% below the 2005 levels, it should be 50% by 2030.

Action should be dictated by science and be evidence based.

We think Mark Carney's ten point plan to "channel the market in service of society" is an excellent start.

Annual updates to citizens as to progress would keep this issue at the forefront where it deserves to be.

Thank you for your attention to this matter!

Regards,

CFUW Burlington
